We would like to notify you of a service that simplifies the way you pay for your visit using a familiar retail payment process. We will review your summary of your visit and calculate the cost of your care based on your insurance plan. After reviewing the charges, we will swipe your credit or debit card and ask you to sign a receipt agreeing to pay up to the authorized amount.

Your card will not be charged until we receive payments from your insurance company and we will only charge up to the agreed upon amount.

You can use the credit or debit of your choice, however we recommend using a credit card. If you use a debit card, there is a possibility that the amount we authorize today will show as a “held” amount for up to three days, depending on how your bank handles authorizations.

Here are the benefits of our new service:

- Use the credit or debit card of your choice
- Eliminate the confusion of multiple bills received after the visit
- Achieve peace of mind about the accuracy of the payment process

Thank you for your cooperation. Please remember to bring your insurance card and payment card to your visit.
